

CRPF2127

Chiller Room

Product Features

- Plug-In - ready after assembly
- Many customisation possibilities
- Easy access to products
- Easy assembly
- Anti-slip floor in SS304 stainless steel
- 80 mm panel insulation
- Shelves available as accessory
- Ramp available as accessory for easy access

Cost-effective, easy and efficient storage through cold r

Measures and Content

Internal Volume	m³	10.05
Wall Thickness	mm	80
Insulation Density	kg/m³	42
Temperature Range	°C	0 to +8
Climate Class		5
Gross / Net Weight	kg	591 / 551
Gross / Net Volume	l	

Design and Material

Door Number & Type	1 hinged solid door W:700 H:1845	
Max Load on Floor	kg/m²	1500
Exterior Finish	White	
Interior Finish	White	
Interior Light	LED	
Lock	Yes	

Cooling and Functions

Type of Controller	Electronic	
Type of Cooling	Ventilated	
Type of Defrost	Automatic, hot gas	
Refrigerant	R290	
Refrigerant Charge	g	170
Thermometer	Yes	

Power and Consumption

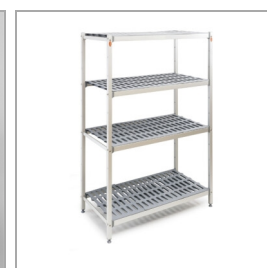

Max Ambient	40°C at 40% RH	
Energy Consumption	kWh/24h	23.4
Annual Energy Consumption	kWh/year	8541
Input Power	W	910
Voltage / Frequency	V/Hz	220-240/50
Noise Level	dB(A)	60

Dimensions

Internal Dimension (WxDxH)	mm	1940 x 2540 x 2040
External Dimension (WxDxH)	mm	2100 x 2700 x 2200
Packed Dimension (WxDxH)	mm	2200 x 1900 x 2400
40ft Container Load	pcs	10

Strong handle

Shelf as accessory

Cold rooms are ideal as a plug-in solution with an easy simple set-up process. The cooling unit arrives completely pre-mounted within a panel and doesn't require additional expert knowledge to assemble, making things easier for you. The interchangeable modular panels mean you can change the positioning in various ways to suit you, both in terms of the panel and the cooling unit, or moving the panel with the door to a panel of the same size. Cold rooms work well within restaurant, delis and cafes environments, and similar settings too, providing an easy walk-in storage solution. They are a great way to optimise your space with efficient cooling in a cost-effective way. Cold rooms create a great chilled environment to store foods, beverages and dairy products and are available as both cooler and freezer units on our website. There's also a vast range of sizes to choose from to suit your environment and business needs. You can also add shelves to provide extra storage space, these are optional. A ramp is also available as an optional extra to provide easy access, by using lightweight trolleys and bakery racks. It's important to note that the cold room range is not suitable for pallet trucks or jacks. The cold room range is also designed for indoor use only. Our cold room range is also a great way to minimise energy consumption, keeping your costs lower. The energy efficient cooling system combines with the polyurethane insulation in the panels to achieve this.
